INNOVATION FOR GOOD

At AEG, we’re relentless in our pursuit of responsible design. Living more sustainably today, whilst setting new standards for tomorrow.

99% 

99% of products with refrigerants have switched to **low global warming gases**.

64% 

64% of electricity used in global operations is from **renewable** sources.

36% 

36% reduction in emissions from our **operations** (scope 1 and 2) compared to 2021.

ZERO  WASTE PLANTS

88% of our factories were “**Zero Waste to Landfill**” certified.

By focusing on our major impacts, we will prevent millions of metric tons of greenhouse gases from entering the atmosphere. This is our roadmap to become climate neutral throughout the value chain by 2050.

THE NEW AEG KITCHEN RANGE

Enter a world where beauty, sustainability, and groundbreaking innovation are at the heart of our appliances with the new AEG kitchen range. Experience the benefits of cutting-edge technology that adapts to your lifestyle, enhances your culinary skills with ease, and transforms the kitchen into a hub of efficiency and elegance, with no need to compromise.

Dishwashers

Several factors should be taken into consideration when selecting a new dishwasher. Space, capacity and smart programmes all influence which dishwasher you should select. AEG Dishwashers provide innovative features that make washing every glass, plate or pan that little bit easier.

Hobs

At AEG we believe that a hob should look as good as it performs. That's why all our hobs are crafted not only to elevate the dishes being cooked, but also provide exceptional flexibility whilst looking outstanding in every kitchen.

Hoods

Cooking environments need to be fresh, bright and peaceful, enriching the time spent there. We use advanced technology to ensure that the design and build of our cooker hoods give the optimum combination of high-end design and powerful functionality.

Ovens

However you like to cook and whatever your favorite dish, there's an AEG oven for everyone. Equipped with our advanced technology, every oven in our range makes it easy and enjoyable to prepare delicious meals.

Refrigeration

We know that flavour is all about freshness and how food is stored with the right humidity and temperature being vital. At AEG we have a flexible range of fridges and freezers to suit you, allowing the perfect solution for your kitchen design.

AEG

PEACE OF MIND BUILT IN

All our core range and Premier Line appliances featured within this brochure are available through our AEG Premier Partner retailers and are covered by our extended five year parts and labour warranty. Premier Partner will register them on customers' behalf so they don't have to worry about a thing. During the warranty period customers are protected against the cost of parts, call-out and labour charges.

All work is carried out by our national network of approved AEG engineers.

SMART COOKING AT YOUR FINGERTIPS

Designed to elevate your cooking experience, our new CookSmart Touch display simplifies selecting and optimising cooking settings. Effortlessly prepare healthy, flavourful dishes while being guided to save energy and achieve consistently perfect results.

Our intuitive CookSmart Touch user interface has also won a prestigious IF Design Award 2025.

THE MATT BLACK COLLECTION

The Matt Black Collection from AEG brings together years of material engineering for an exclusive and premium execution. The quality of the materials are brought to life with architectural edges and tactile surfaces, with polished displays and interaction areas bringing new aesthetics and improved functionality to an increasingly sophisticated kitchen space.

Inspiration behind the design

“The matt glass fascia is created by an etching process, a technology from the architectural world. The matt texture has natural anti-fingerprint properties, which is tested to be much more resistant to stains and easier to clean, bringing an advanced level of performance.”

Terence Tan

Terence Tan, Senior Master Designer

Touch controls

Bringing together years of material innovation, our Matt Black finish combined with traditional glass offers a seamless look designed for performance.

Naturally stain-resistant and safe from fingerprints, the Matt Black surface maintains its quality over time. Truly sophisticated, this new collection offers kitchens an elevated sense of elegance.

AEG

INDUCTION HOBS GIVING YOU ULTIMATE KITCHEN DESIGN FREEDOM

With a range of intelligent sensors built into AEG induction hobs, saving energy in the kitchen is seamless. Good to know that the food – and the electricity – isn't being overcooked.

SAPHIRMATT® HOBS, BEAUTY THAT LASTS

Enter a world where beauty and innovation are not at the expense of practicality, with our revolutionary SaphirMatt® Induction hobs. The sophisticated, sleek matt black glass finish not only delivers up to four times the scratch resistance* compared to our standard ceramic hob surfaces, it also resists fingerprints and stains so you can spend less time cleaning and more time creating culinary masterpieces.

*Based on external tests, compared to our standard hob surface without special treatment or coating.

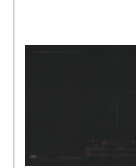

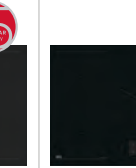

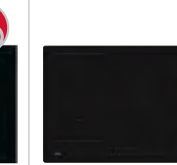

Fingerprint resistant

Up to 4 times more
scratch resistant*

EXTRACTOR HOBS. FAST, PERFECT INSTALLATION.

At AEG we aim to offer a Best-in-Class installation experience.

We are improving and renewing our domestic appliance installation process to ensure that installing our products is always as simple as possible.

3D models for both the extractor hobs and installation parts are available in 3D to use within kitchen design systems.

FEWER INSTALLATION STEPS:

- Unpack and let's go
- Just 30 installation steps compared with 85 for previous AEG ComboHob
- Professional and faster than usual in the market

65% less
installation steps
than previous
model

SIMPLE

- Text-free installation instructions
- Only one person
- Less tools required
- Adapts rapidly to fitting situation

FLEXIBLE

- Suits all kitchen designs
- All AEG products are simple to install
- Fits in standard niches

All hobs can now be installed in either the recirculating or duct out version. If installing the duct out version, you will need the ducting kit which can be seen on page 49.

INSTALLATION OPTIONS:

RECIRCULATION VERSION

Recirculating air filters and cleans vapours using the two-in-one filter. The active charcoal filter in the two-in-one filter absorbs odours. Once cleaned, air returned to room.

DUCT OUT VERSION

Exhaust air filters vapours using grease filter. Filtered air is vented outside into open air.

AEG

INSTALLER APP

QUICK & EASY INSTALLATION

EASY

Only **ONE** Torx T20 screwdriver to install ALL appliances.

QUICK

Not having to change tools saves time.

FIRST TO MARKET

The first manufacturer to design an installation app specifically for professional installers.

SCAN

Scan or search the product to access all the technical specifications and installation videos.

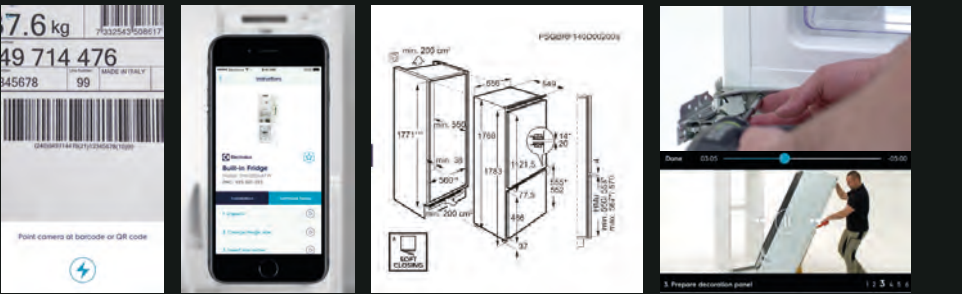

INTUITIVE INSTALLER APP MADE BY PROFESSIONALS FOR PROFESSIONALS

Discover the correct and fastest way of installing AEG, Electrolux and Zanussi appliances. An app exclusively for professional appliance installers.

Actual Screen shots

Download from the App Store or Google Play. On App Store search 'Electrolux Installer App'

AEG

Premier Partner

We exist to challenge what you can expect from household appliances.

From the origins of our brand over 100 years ago, to today, we're driven by the belief that our consumers should never have to compromise. With an uncompromising approach to innovation, a drive to create sustainable solutions, and an unwavering commitment to pure and precise designs, we create appliances and innovations that allow our consumers to have it all, without compromise.
